SUMMARY: 1991-92 INSTITUTION APPLICANT ROSTER AND TAPE DATA SERVICE FOR FEDERAL STUDENT AID PROGRAMS

Dear Colleague:

This letter and the enclosures describe the applicant roster and tape services for Federal student aid. Please review this document in its entirety as it contains updated information and instructions.

Applicant rosters (hard copy) and tapes provide listings of those students who indicate on their applications that they plan to attend your school. They are available free of charge in two formats; abbreviated and full. Abbreviated rosters, abbreviated tapes, and full tapes provide cumulative listings with each production. Full rosters include a student's data only if activity has occurred since the last listing was produced. Please refer to the enclosures for the production schedule, complete descriptions, and samples of each format.

Institutions which received hard copy rosters and/or tapes for award year 1990-91 DO NOT NEED TO REAPPLY for future processing cycles unless you wish to change the service that you selected (e.g., production dates and type or media of data). If the service you require for award year 1991-92 is the same as that which you selected for award year 1990-91, you do not need to submit an Applicant Roster/Tape Option Request Form for award year 1991-92. However, if you wish to change or cancel the applicant information service, your institution must complete an Applicant Roster/Tape Option Request Form.

Institutions which did not receive hard copy rosters and/or tapes for award year 1990-91 and want to receive the service for award year 1991-92, must also complete the Applicant Roster/Tape Option Request Form (Enclosure B).

Please make note that the applicant roster/tape service is separate and distinct from the Pell Grant Recipient Data Exchange (RDE) process. The applicant roster/tape service provides information about applicants from the Federal Student Aid Central Processing System to the institution. The RDE process allows institutions to submit payment data from Part 3 of the Student Aid Report to the Department on magnetic tape. While a school may use the applicant tapes from the Federal Student Aid Central Processing System to build its data base for later use in the RDE process, a request to receive the applicant data tapes does not, in itself, allow an institution to participate in the RDE process. Please refer to Enclosure H for further information about the RDE process.

ENCLOSURE A - DESCRIPTION OF 1991-92 APPLICANT ROSTERS AND TAPES

Options Available

Institutions may receive hard copy applicant rosters (abbreviated or full), and/or data tapes (abbreviated or full data) for up to 40 dates throughout award year 1991-92. Abbreviated hard copy rosters, abbreviated data tapes, and full data tapes provide cumulative listings. Each hard copy roster or tape in these formats include data from the most recent official transaction for every applicant who indicated your institution on his or her application or Student Aid Report (SAR) from the beginning of the processing year to the date of the report. Whereas, full hard copy rosters provide data from the most recent official transaction for those applicants who indicated your institution on applications or SARs processed since your last roster.

Assuming that output type and requested frequency do not change, institutions receiving rosters and/or tapes for award year 1990-91 do not need to reapply for award year 1991-92. To initiate the applicant data service, your institution must complete the Institution Roster/Tape Option Request Form (Enclosure B), then mail it to the address or transmit a facsimile to the number indicated on the form. As an alternative, your institution may call the Applicant Roster and Tape Service, at (319) 339-6766 to apply.

A description of each of the available options follows:

The abbreviated hard copy roster is a paper presentation of basic applicant data. These data include the applicant's name, current social security number, birth date, mailing address, Pell Grant Index, family contribution (FC), and institution verification selection indicator, as well as other information about the student's application. The format is presented through a sample abbreviated hard copy roster in Enclosure D.

The full hard copy roster is a paper presentation of complete applicant data. These data include all of the elements contained in the abbreviated hard copy roster, as well as all of the financial data reported by the applicant. The format of the full hard copy roster is presented through a sample in Enclosure E.

An abbreviated data tape is a magnetic tape presentation of basic applicant data. These data include all of the elements contained in the abbreviated hard copy roster, as well as the applicant's original name code (first two characters of original last name) and originally reported social security number. The record description of the abbreviated tape is included in Enclosure F.

A full data tape is a magnetic tape presentation of complete applicant data. These data include all of the elements contained in the abbreviated data tape, as well as all of the financial data reported by the applicant. Also, the full data tape includes the same data elements as the Electronic Student Aid Report (ESAR) layout. The record description of the full tape is included in Enclosure G.

Summary counts and a table showing the distribution of applicants by income for your institution will be included with your roster, whether it be hard copy or tape. A sample of these materials is included with Enclosures D and E.

Production Mail Out Dates

The Department of Education has established the following dates for the mailing of hard copy applicant data rosters and tapes to institutions. The schedule contains 40 dates spaced throughout the processing year. However, these dates are subject to revision, as necessary. An institution may choose any combination of dates on which to receive applicant data rosters and/or tapes.

February 14, 1991	August 22, 1991	February 20, 1992
February 28, 1991	September 5, 1991	March 5, 1992
March 14, 1991	September 19, 1991	March 19, 1992
March 28, 1991	October 3, 1991	April 2, 1992
April 11, 1991	October 17, 1991	April 16, 1992
April 25, 1991	October 31, 1991	April 30, 1992
May 9, 1991	November 14, 1991	May 14, 1992
May 23, 1991	November 28, 1991	May 28, 1992
June 6, 1991	December 12, 1991	June 11, 1992
June 20, 1991	December 27, 1991	June 25, 1992
July 3, 1991	January 9, 1992	July 9, 1992
July 18, 1991	January 23, 1992	July 23, 1992
August 1, 1991	February 6, 1992	August 6, 1992
		August 20, 1992

Hard copy roster dates and tape dates are independent of each other. If both rosters and tapes are requested, they may be received in any combination: separately, simultaneously or a mixture.

Changing or Cancelling Roster and Tape Service

At any time during the processing year, an institution may submit an updated Option Request Form. The updated form replaces any previously submitted requests. An institution may change the type of service received as well as the date, or dates, on which applicant data is requested to be produced. For example, an institution receiving hard copy rosters may make a change in the type of service to begin receiving data on magnetic tape in addition to paper roster. Or an institution may change their request from receiving applicant data with every production to receiving it with every other production. The new service will begin with the first mailing date that is at least ten working days after the date that the updated form is received. The new request form will remain in force until further modified or cancelled.

The applicant data service may be cancelled at any time. To cancel, complete the top portion of page 1, on the Request Form indicate a check in the "Cancellation" box, write in the school year affected by this action, and return the form to the Federal Student Aid Central Processing System at the address or fax number indicated.

Requirement To Return Tapes

Institutions which receive abbreviated or full data tapes are required to return the tapes to the Department of Education's Federal Student Aid Central Processing System within 60 days of the tape's production date (as indicated on each tape's external label). If you do not return the tapes within 60 days, we will discontinue your institution's tape service. Tapes must be returned to:

Federal Student Aid Programs
P.O. Box 4105
Iowa City, Iowa 52244

Roster and Tape Requests for Entire Institutional Systems

The Federal Student Aid Central Processing System identifies institutions by the Pell Institution Number. Institutions with more than one branch campus may receive applicant data only at the central office. A branch campus cannot request a separate roster or tape.

Whenever a central institution is requesting services on behalf of branch campuses that have unique Pell Institution Numbers, the central institution must coordinate within their system to ensure that branch campuses have not submitted their own request. Multiple requests for the same campus will delay the processing of your Option Request Form. **The central campus must request the roster and tape service for the entire system; all rosters and tapes will be sent to the central institution.**

Institutional systems in which one campus processes data for all branch campuses should consolidate their request for applicant data. These institutions may decide to receive one tape containing all branch campus applicant information, listed alphabetically within branch Pell Institution Number, rather than individual tapes for each branch. This option should be indicated on the Option Request Form (Enclosure B).

Requirements For A Student To Appear On An Applicant Roster/Tape

A record will be included on a roster or tape only if the proper signatures and institution name, city and state are supplied on the Application for Federal Student Aid (AFSA) or Student Aid Report (SAR). To appear on the full hard copy roster, the record must also have been processed since the date of the last roster.

For an independent student, the applicant's signature is sufficient. For a dependent student, the applicant and at least one parent must sign the AFSA or SAR. If a transaction does not have the proper signatures, that transaction will not appear on the roster/tape. However, if that transaction is not the applicant's only transaction, then the latest previous transaction with valid signatures will appear on the roster/tape. For full hard copy rosters the latest previous transaction will be used only if it was processed since the date of the last roster.

If an applicant has not properly listed or abbreviated the institution name, city, and state, then that applicant will not appear on a roster or tape. For institutions with foreign sites, applicants attending those foreign sites will appear on the roster or tape only if the city and state of a central or branch campus which has a Pell Institution Number is specified.

"Missing Transactions"

Because applicant rosters and tapes contain only the most recent official transaction and an applicant could have more than one transaction processed between roster productions, a given transaction may not appear on any roster or tape. For example, Ted Jones' application is processed on October 1, resulting in transaction 01 for Ted Jones on the roster produced October 17. Ted Jones corrects his income, resulting in a transaction 02 on October 20. He then corrects his birth date, resulting in transaction 03 on October 24. Transaction 03 appears on the roster produced on October 31 because 03 is Ted Jones' most recent transaction. However, because no roster is produced between Ted Jones' 02 and 03 transactions, his 02 transaction does not appear on any roster or tape.

Applicant Data Release

If an applicant does not approve the release of his or her data to the institution, his or her record will still appear on the institution's roster or tape. However, the student's financial data (i.e., those items that are included on the full data tape or roster, but not on the abbreviated data tape or roster) will not be shown on the full data tape or roster. In order for the student's full financial data to appear on the full data tape or roster, the student must have approved release of his or her data to the institution.

Correcting The Institution Or Data Release

As in previous award years, the SAR will indicate the institutions reported by the applicant. Beginning with the 1991-92 cycle, an applicant may specify up to three institutions. The SAR will also indicate whether the applicant released his or her financial data to the institutions. These fields are correctable. To change an institution or to authorize the release of his or her data, the student need only make the appropriate corrections on his or her SAR, sign (student, or student and parent) the report and return it for processing. These corrections will then be reflected on subsequent applicant rosters or tapes. It should be noted, however, that a student need not appear on an institution's application roster or tape in order to receive a Pell Grant.

Original And Current SSN

For abbreviated or full data tapes, if a student did not report his or her social security number on his or her original application, the Federal Student Aid Identification Number (a dash followed by eight digits) will be shown in both the current and original social security number fields until the student reports his or her social security number.

When a student makes a correction and provides a new social security number, it will appear in the "current social security number" field. The "original social security number" field will continue to reflect the Federal Student Aid Identification Number for the remainder of the processing year. The abbreviated and full rosters do not show original social security number; only the current social security number appears on the rosters.

Last Name And/Or Social Security Number Change Flag

If a student changes his or her last name, the student will appear on a tape or roster under his/her most current name. An "N" in the "Last Name and/or Social Security Number Change Flag" field on the latest transaction will indicate that the student has changed his or her last name. An "S" in that field indicates a social security number change and a "B" indicates that both the last name and social security number have changed.

Pell Grant Index And Family Contribution Calculation

For the 1991-92 award year, both simplified and full data Pell Grant Indices (PGIs) and Family Contributions (FCs) will be calculated. The full calculation is based upon an applicant's complete income and asset financial data. The simplified calculation considers a limited number of financial data items and is based on income level and the IRS form filed for 1990. If an applicant qualifies for the simplified calculation but completes the full application, two PGIs and two FCs will be calculated. The hard copy rosters and tape formats refer to these two values as primary and secondary. The abbreviated hard copy roster designates the primary value with a "P" and the secondary value with an "S". The tape format and full hard copy roster have separate fields for primary and secondary calculated values.

Institution Initiated Corrections

Financial Aid Administrators (FAAs) may recalculate PGIs and submit corrections reflecting changed data elements and recalculated PGIs. The central processing system will calculate the PGI based upon the changed data and compare this PGI with the PGI recalculated by the FAA. A correction submitted with a recalculated PGI will be designated with an "R" in the "PGI Adjustment/Recalculation Indicator" field.

Dependency Override

Department of Education procedures outline when an FAA may or must override a student's dependency status and how to accomplish the processing of the override. The "Dependency Override Indicator" notifies the student specified institutions of record that the dependency status override has been used.

Institution Verification Selection

Applicants are selected for institutional data verification for a variety of reasons. The selection reasons are prioritized and an applicant meeting more than one reason is designated as being selected for the highest priority reason. The indicator supplied on the hard copy roster and tape formats reports this highest priority reason. Letters and numbers A through Z, 1, 2, 3, 4 and 5 as well, are assigned to the selection reasons and priority is assigned in descending order with letters having priority over numbers. For example, reason "A" has a higher priority than reason "D." For information on the selection reasons, contact the U.S. Department of Education on (202) 708-4601.

Full Data Tape And ESAR Formats

Continuing with the 1991-92 award year, the full data tape format and the Electronic Data Exchange (EDE) Electronic Student Aid Report (ESAR) format are identical. Therefore, the full data tape contains fields which are only useful to institutions participating in the EDE. For information on EDE participation, contact the U.S. Department of Education on (202) 708-8270 or (202) 708-6830.

ENCLOSURE B - INSTITUTION APPLICANT ROSTER/TAPE OPTION REQUEST FORM

ENCLOSURE C - SUMMARY OF INSTITUTION APPLICANT ROSTER/TAPE CHANGES FOR 1991-92

1. Changes to Abbreviated Hard Copy Roster:

- Dependency Override Indicator: values added and modified
- Institution Verification Selection Indicator: added values
- Agency Code: added value

2. Changes to Full Hard Copy Roster:

The criteria that determines which applicants are listed on this roster format has been modified. Full hard copy rosters will now list only those applicants with a transaction processed since the date of the last roster. In addition, fields have been deleted, modified and added, as follows:

- Dependency Override Indicator: values added and modified
- Verification Selection Indicator: added values
- MDE Agency Code: added value
- RIT Indicator: one value deleted
- Deleted: RIT Transmitting MDE and RIT Receiving MDE
- Added: Title IV Default Match Indicator
  Title IV Default Match Region Code
  Third College Name and Address

3. Changes to the Abbreviated Tape Format:

- Dependency Override Indicator: values added and modified
- Agency Code: value added
- Institution Verification Selection Indicator: values added
- Third Pell Institution Number field added

4. Changes to Full Tape Format:

The Full Tape format has had fields deleted, modified and added. As a consequence, the length of a record has been expanded to 869 bytes. The affected fields are listed below.

a) Fields modified: (1991-92 field positions shown in parentheses):

- First Received Federal Student Aid (124)
- Alien Registration Number (136-144)
- Parent's Marital Status (296)
- Award PGI Indicator (437)
- Transaction MDE Code (448)
- RIT Indicator (449-450)
- Dependency Override Indicator (465)
- Institution Verification Selection Indicator (480)
- Agency Code (549)

b) Fields deleted:

- RIT Transmitting MDE code
- RIT Receiving MDE code

c) Fields added: (1991-92 field positions shown in parentheses):

- Year Indicator (116)
- Resources $4000 or More, 1989 (133)
- Resources $4000 or More, 1990 (134)
- Title IV Flag (451)
- Title IV Region Code (452)
- Third Pell Institution Number (562-567)
- Stage 0 Reject Codes (778-785)
- Total Parent Contribution (786-792)
- Dependent Student's Income Contribution (793-799)
- Dependent Student's Income Supplement (800-806)

d) Fields with name change (no change in values appearing in field)

- Student's Veteran's Dependents Educational Assistance Program (DEAP) benefits per month (205-207)

- Number of Months of Student's Veteran's Dependents Educational Assistance Program (DEAP) benefits (208-209)

YYYYY = Last five digits of Pell Institution Number

All data are written in character format using standard extended binary-coded-decimal interchange code (EBCDIC) characters with signed numeric fields implied in the right most character of the field. For example, PGI would have a PIC 9(5). With a value of 1615, it would appear in hexadecimal as F0F1F6F1F5 and in character as 01615.

All 9s in a field indicate that the reported or calculated value is greater than or equal to the value of all 9s.

Tapes must be returned to:

Federal Student Aid Programs
P.O. Box 4105
Iowa City, Iowa 52244

Failure to return a tape within 60 days of the tape production date (as indicated on each tape's external label) will result in your tape service being discontinued.

ENCLOSURE H - RECIPIENT DATA EXCHANGE

The Pell Grant Recipient Data Exchange process gives institutions the opportunity to submit payment data from Student Aid Reports (SARs) in machine-readable form. The process was established to expedite the flow of recipient information and to reduce the clerical burden for participating institutions. All of the payment data from the SAR is transmitted on a magnetic tape to the Department of Education (ED).

The Recipient Data Exchange (RDE) process has the following advantages over the manual reporting method:

- o Eliminates manual completion of the Student Payment Voucher (Part 3 of the Student Aid Report).
- o Reduces handling and mailing costs to the institution. RDE institutions are not required to send or receive hard copy Payment Vouchers for recipients;
- o Reduces the number of manual processing steps at the institution to determine student awards;
- o Provides the opportunity to shift the bulk of exchange of Pell Grant data with ED to an automated interface handled by an institution's computerized system(s);
- o Makes error correction processing more efficient through greater accuracy in data and upgraded turnaround in Student Payment Voucher information processing;
- o Facilitates prompt determination of the student's award status and the need for adjustment to institutional funds.

Note: The applicant rosters and tapes described elsewhere in this package are not a required part of the Recipient Data Exchange process. Applicant data is sent by the Federal Student Aid Processing Center to institutions in the form of applicant rosters and tapes. Recipient data is a tape sent by the institution directly to ED with the required Recipient Data Exchange Transmittal form and a dump of the institution's tape with a header record (record type '1'); at least 1 data detail record (record type '2'); and a trailer record (record type '3'). Please direct your questions concerning the Pell Grant Recipient Data Exchange (RDE) process to the RDE Specialist at the Department of Education on (202) 708-9168.
